

## **Current events viewed from the perspective of End Time Prophecy**

First the Key concepts to grasp:

End Times - Means towards the end of the reign of human will on Earth

Truth - Means the overriding laws that sustain and govern the operations in Creation (aka The Will of The Creator)

Millennium - Means The allotted period for mankind to fully adapt our will and ways to Truth

Kingdom of GOD on Earth - When only that which is fully aligned to The Will of The Creator (i.e. Truth) will be allowed in order to exist on Earth and in Creation

End Times Does not mean the time when the Earth will explode and all life will be exterminated on the planet. It simply means the end of Man's will to guide events and developments on Earth and its environs – both material and non-material

Some other background regarding End times

Since the Creation of Man, and our entrance onto this earth, we were given the freedom of choice to determine the path to pursue for our spiritual development, and as well as the progression of our planet.

We were also given advice on the best paths to follow towards our spiritual development. These are the golden rules that appear in all sacred books and oral traditions.

We have not followed this advice. To safeguard the rest of Creation, a halt must be put to the supreme rule of the human will on Earth.

Anyone who wishes can see what we have done with our freedom to choose.: Murder, Wars, hatred, bigotry, proliferation of the deadly sins (greed, lust, envy, pride, slot, anger, gluttony. Not to mention Homelessness & Refugee Camps, exploitation of children and planet Earth's resources, modern slavery, cruelty to animals, disregard for man-caused environmental disasters or how it affects other creatures.

In 2023, the World Health Organization (WHO) highlighted the significant global mental health burden at over 1Billion people (i.e. one in eight people) worldwide living with a mental disorder. The statistics for 2021 is more than 700,000 people die by suicide every year,

Clearly mankind is lost, and we don't seem to be able to find our way out of our self created crisis. And perhaps it is becoming obvious to some that The only way out is for man to become reacquainted with Truth (the Laws that govern Creation), implying that Only the overthrow of man's self-will can bring about the longed for change.

Thus it is that many see what is happening around us as part of the signs mentioned in End Times prophecy. These include the rise of false messiahs, warfare, famines, plagues, and natural disasters - Matthew 24:5–8.

The prophet Muhammad also added that signs of the end of times will include abundance of wealth and increased brutality.

This is no doubt causing much anxiety, even among believers who are not sure how all of these unfolding will affect them too.

But, it was also prophesied that just before the End Time, knowledge of The Truth, devoid of all the distortions added by man, will be given again.

And this Truth must be sought after and grasped by all who want to see an end to the rule of the self-centered human will. This self-will exists in all human beings, and must be eradicated voluntarily or by force as part of this foretold End Time.

However, we are also warned that to encounter the Truth again, one must keep the longing for it alive within them. So, not everyone will encounter Truth, even though it may be within their grasp or is circulating around them.

But even encountering Truth is not going to be enough.

After the bringing of Truth will follow a gradual eradication of the self-centered human will, through major Spiritual, ethereal as well as earthly events.

During this process, only those who have demonstrated a consistent and sincere desire to rid themselves of their faults and to realign themselves with the Will of The Creator in The Laws of Creation will survive this eradication.

They can then look forward to another intensive Spiritual schooling, when they will learn to use the tools with which we are endowed, to become real Human Spirits as we should be in creation.

This schooling period is called the Millennium in Biblical prophecy. It is the time allotted to man to use the Truth to rid ourselves of all evil traits and tendencies that we still carry within.

After this period, no one with any evil trait or tendencies will be allowed to remain, or to incarnate on Earth.

As the term Millennium indicates, this period is estimated to last about 1000 earth years.

The prophesied signs of the events that will precede this purification period include natural disasters, (Wild Fires, Earth quakes, Rising sea levels).

The extent and rapid rates of Natural disasters are clear signs that something unusual is happening. They logically suggest the increased activities of the forces of Nature, preparing the Earth for its purification.

The drastic increase in human population on Earth - from approximately 2.8 billion in 1927 to over 8 billion in 2024 - is interpreted by some as due to the rush of discarnate human spirits to incarnate on Earth. Some of them have come to take advantage of the presence of Truth now on Earth, so that they can learn and rid themselves of their evil ways.

But also, the deplorable moral condition on Earth has made it possible for discarnate Spirits at a lower level of Spiritual development to gain access to the Earth plane. In addition to adding to the Earth's population their increased presence on Earth is, through their growing influence, shaping morality and standards on Earth. This gives a crucial Spiritual insight as to why it appears that moral standards on Earth seem to be in a free fall.

This insight sheds a completely different light on the role of Influencers who many follow without regard to the effect or impact of their influencing. In fact, some Spiritually knowing ones have suggested that as much as 50% of Earth's current population belong to these entities that have swamped onto the Earth through the lowered draw bridge of lax morality and values.

There is also the prophecies, and now scientific prognosis, of a projected drastic reduction of human population on Earth, starting by the third decade of this century. Some see this scientific prognosis as part of the prophesied cleansing. This outlook for a reduction of the population of the world to less than the current size.

Again this outlook can be interpreted as part of the prophesized elimination of those who show no inclination to abandon their evil ways, thus giving those who wish to change an opportunity to work on redeeming themselves without these corrupting influences.

Similar prognosis is contained in a few prophecies. For example, Hinduism prophecies that Before the age draws to a close, Harihara will simultaneously dissolve and regenerate the universe. The Incas believed that A great change will turn the world upside down, nearly tearing it apart. Then peace would rise again from its ruins. The Christian Bible and the Quran talk about a final judgment of man, followed by the establishment of a new heaven and earth, or The Kingdom of GOD on Earth.

As any one who has tried knows, Getting rid of a bad habit takes much effort and time. Mankind of today is chained to too many bad habits And though 1000 years may sound like a long time, in truth, it isn't. In the context of Spiritual life, 1000 earths years is but a brief moment in time. So Don't think you have plenty of time to find the truth, accept it, and change, Before the allotted time runs out.
