

The Age-old Questions

Who am I.

Why was I born.

What is my purpose in Life.

Where does Life lead.

The guiding philosophy of this channel is to help you find answers to these fundamental questions of Life, and more, by helping you come to the recognition that:

1. A human being is a Spirit, that is gifted with a body, mind and emotion as tools to make it possible for the Spirit to navigate and to experience Life on Earth.
2. ANY actions or expressions of a human being simply reflect the level of maturity of the Spirit.
3. A Spirit cannot hold its tools responsible; as occurs when a Spirit succumbs to the instincts of the body, or the dictates of its mind (the intellect) or the emotional outbursts of its psyche.
4. Everything that a human being does is, in effect, Spiritual activity, and this has nothing to do with religion, or our current narrow definition of spirituality!
5. Life for a Spirit is the journey, and not a destination.
6. Experiencing is part of Life, and gives meaning to the journey.

7. A Spirit's purpose and meaning in its Life-journey can be found and experienced when a Spirit recognizes its proper role in Creation (Life)!
8. This recognition can only come to you through aligning yourself to the Spiritual laws that govern a Spirit's existence.
9. These Laws, for example the law of Karma, the law of Attraction of same Kinds, the law of Balance, the law of Gravity, are automatic principles that are triggered, with consequences for you, by your actions, words and thoughts.

Unfortunately, the interpretations of many sacred books that contain hints on how you should align yourself with the Spiritual Laws are flawed, making it difficult for many to make the necessary alignment.

The Grail Message by Abdrušin, published in the 1930s, is a new source of knowledge that points again to the true spiritual essence of these laws. Explaining them in simple and clear terms, so that anyone who is truly interested can realign themselves with these Spiritual Laws.

We encourage you to explore this new source of Spiritual Knowledge.

You need it for your journey of Life, and to embrace your Spiritual growth,
